

17 May 1962

The Honorable James E. Webb
Administrator
National Aeronautics and
Space Administration
Washington 25, D. C.

Dear Jim:

Mr. McCone has given me the Long Range Plan of the National Aeronautics and Space Administration which you sent to him. It is indeed a very impressive document and will be of considerable value to us, not only in providing background information on U.S. programs but also by providing us assistance in our analysis of information on foreign programs.

I appreciate very much your having made this plan available.

Sincerely,

SIGNED

Herbert Seoville, Jr.
Deputy Director
(Research)
